Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Wednesday 12 May 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Further showers for many.

This Evening and Tonight:
Heavy showers and thunderstorms mostly dying out. Rain across parts of southern England, heavy in places, moving north into east Wales and the southwest. Patchy light rain and drizzle affecting northern Scotland.

Thursday:
Rain across southern England and Wales turning more showery. Another day of sunny spells and showers for most, some heavy. Cool and cloudy in the northeast, especially near coasts.

Outlook for Friday to Sunday:
Remaining unsettled with rain or showers, which will often be heavy and at times thundery. Perhaps fewer showers across Scotland where cloudier with light rain. Temperatures near to below normal.
